

A

Plunger and spring lubricated with
oil type HLP acc. to DIN 51524-2.

Valve body: PA 6.6
Sealing material: FKM

Function: 3/2 NC
Nominal orifice: 0,8/1,0
Operating pressure: max. 16 bar
Leakage: max. 4ml/min

Valve system temperature range -30°C...+130°C.
The temperature range of the complete solenoid valve depends on the used coil.
